SPACE SAVER

10STH

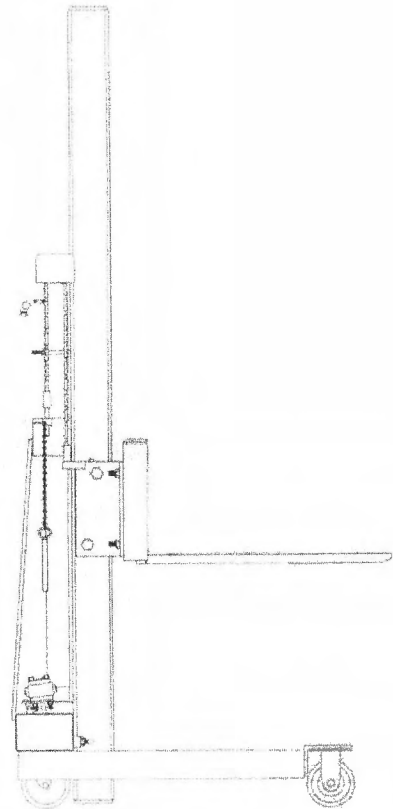

- 1000 lb. Capacity
- Compact design turns within its own length
- 75" of lift height
- 18" load center
- Hydraulic cylinder and hand pump

ACCESSORIES

- Boom Attachment
- Barrel Grip
- Platform Assembly
- Rug Pole
- Steel Wheels
- Polyurethane Wheels
- Remote Pendant

STANDARD FEATURES

- Meets Ruger's engineering standards of 150% structural overload of maximum rated capacity
- Floor lock to prevent rolling
- Dual leaf-type load chains
- Hydraulic cylinder and battery operated (battery not included)
- Standard casters with non-marking hard rubber wheels with sleeve bearing
- Fork dimensions- 26" long / 1 1/4" thick / 4" wide
- Needle type release valve permits pin-point control over lowering and holding of the heaviest loads
- A special two speed valve for raising and lowering loads (An original Ruger patent)

The 10STH comes complete with built-in hydraulics and a needle type release valve for pin-point control. The double acting hand pump simplifies the raising and lowering of loads.
